

IN THE SPECIFICATION

Please amend the Abstract as follows:

~~An object of the present invention is to realize an~~ An imaging device and recording control system in which the usability thereof ~~can be~~ is improved dramatically. ~~The~~ ~~in an~~ imaging device is configured to output imaging data that is obtained as a result of imaging of an object, and a recording control system, ~~the~~ The imaging device ~~comprises~~ includes a control means for ~~recognizing unit that recognizes~~ a controlled state of an external recording device when a communication is enabled with the recording device through a communication means ~~channel~~ that conforms ~~conforming to~~ a predetermined transmission method, ~~and an input means for allowing~~ An input unit allows the recording device to execute an application needed for a recording operation obtained by controlling the recording device, ~~and the~~ The recording device records the imaging data obtained through the communication means ~~channel~~ when the application is executed, ~~by means of the input means.~~
